

SYNCR0, SOLO AND MX4000 LINE EQUIPMENT ORDER CODES

All line equipment is fully compatible with the Syncro, Solo and MX4000 systems and the Syncro/Solo Lite

CODE	DESCRIPTION
TSMCPE	Call point, addressable, surface mounting (glass sold separately)
BGCPSG	Break glasses for TSMCPE (pack of 5)
TSSR2T	Back box for TSMCPE
TSMCPW	Call point, weatherproof, addressable, back box inc (glass sold separately)
TSALGE	Photo-electric smoke detector, analogue addressable (base sold separately)
TSAIEE	Ionisation smoke detector, analogue addressable (base sold separately)
TSATGE	Heat detector, analogue addressable (base sold separately)
TSACAE	Multi sensor, analogue addressable (base sold separately)
TSYBNR3	Detector base
TSYBORSCI	Short circuit isolator
TSCHQBS	Loop sounder (fits under detector)
TSSIBC	Cover for loop sounder when used as a stand alone unit
TSCHQMZ	Loop interface, addressable single conventional trigger zone controller, loop powered, max 6 detectors, boxed
TSCHQZ	Loop interface, addressable dual conventional trigger zone controller, requires 24V PSU, max 60 detectors, boxed
TSCHQB	Loop interface, addressable monitored dual conventional alarm line controller, requires 24V PSU, boxed
TSCHQR	Loop interface, addressable dual output relay controller, requires box
TSCHQSIO	Loop interface, addressable 240V output relay controller, requires box
TSCHQS	Loop interface, addressable dual input relay monitor, boxed
TSMIOU8B	Loop interface, boxed 8 way input output unit

Issue P05cW.08.05
